

Corporate voluntary blood donation

On Thursday, July 18, at the premises of the factory in Tychoero Evros, we gathered for another blood donation event, which is organized by the AKRITAS Workers' Union.

The purpose of the corporate voluntary blood donation is to develop a culture of volunteerism, to maximize the social impact and to strengthen the Blood Bank of our employees.

With over 40 entries we can only be proud of all the people at AKRITAS industry who gave up some of their time to support this important cause.
