

AKRITAS establishes the institution of granting scholarships to students of the Polytechnic School of Democritus University of Thrace

In an important initiative within the framework of Corporate Social Responsibility (CSR), AKRITAS wood industry is pleased to announce the establishment of a new scholarship program for students of the Polytechnic School of Democritus University of Thrace. This initiative aims to strengthen and promote a culture of learning and innovation in the industrial sector.

The AKRITAS Scholarship Program is designed to support students who are in the 4th year of their undergraduate studies and whose place of permanent residence is in the Evros Regional Unit.

On Monday, December 9, the Polytechnic School in Xanthi held its first student award ceremony and awarded scholarships. Present at the event were the Vice-Rector for Finance, Planning and Development, Mr. Konstantinos Chalioris, the President of the Department of Electrical and Computer Engineering Mr. Georgios Syrakoulis and the President of the Department of Production and Management Engineering Mr. Georgios Gaintatzis. On the part of AKRITAS, the CEO of the company Mr. Efthymios Konstantopoulos, the Director of Financial Services & Sustainable Development Mr. Polychronis Dardambounis and the Head of the Human Resources Department and member of the ESG team of AKRITAS Ms. Konstantina Kairidi were present.

AKRITAS wood industry, committed to the goals of Corporate Social Responsibility, believes that investment is one of the most effective ways to contribute to the development of our society and economy. The Company remains committed to having a positive impact on the local communities where it operates and this initiative is a testament to its ongoing commitment to education, sustainability and innovation.
